

## Highlands Fiber Network Business Services

The Highlands Fiber Network is here to connect your business to the Highlands community and the World. Regardless of the size, or kind of company, HFN has Internet service options that fit your business needs. HFN Internet services are faster, more reliable, and more economical than other service providers. Utilizing the fiber network installed to every building in the Issaquah Highlands community, HFN supplies an Internet connection that is unmatched. Whatever your company's Internet needs Highlands Fiber Network has the solution.

### HFN Business Internet

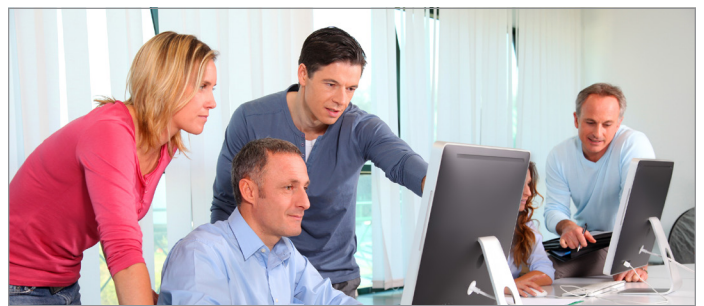

HFN's Business Internet services offer high-speed symmetrical access to the Internet. The access plans provide economical burstable bandwidth for low to medium volume Internet needs. HFN Business plans also offer a usable static IP address as part of each package. HFN's Business Internet services offer much lower latency than any competitor, giving your business a superior connection. HFN's Business options offer 4x the speed of other providers at half the price! Dedicated Internet service plans offer companies all the capacity and Internet bandwidth necessary to increase employee productivity while beating your customers' expectations. Our customer focused support will make sure your business has what it needs.

Plans start at just \$59.95 a month.  
Complete pricing details on the back.

Highlands Fiber Network offers a variety of Basic and Dedicated Business Internet solutions at competitive price points.

### Customized Internet Solutions

Highlands Fiber Network has a variety of Internet connectivity solutions available to suit the special needs of your business. HFN has direct fiber connectivity back to the Westin Building Exchange, a carrier-class hotel in downtown Seattle allowing for dedicated VLANs, dedicated cross connect options and other services other providers just cannot offer. HFN can design a solution to match your business needs to make sure your HFN service gives you everything you need to support your business operations. With HFN's dedicated IT staff you can count on solutions that are developed and completed by experienced professionals with the expertise to implement solutions to industry standards and SLAs. Please inquire with your specific needs for a custom solution.

### Business-Class Support

HFN has a 24/7 business-class customer support team that understands what it means to deliver on a commercial service level agreement. HFN supplies highly reliable Internet services that consistently exceed 99.99% network availability, offering your business the highest performing Internet access available. Your business cannot afford to settle for anything less than the very best quality and protection when it comes to maintaining your critical business Internet operations.
